ACKNOWLEDGEMENT

It gives me a great sense of pleasure to present the report of the e-commerce website under mini project during B. Tech. Third Year.

This project in itself is an acknowledgement to the inspiration, drive and technical assistance contributed to it by many individuals. This project would never have seen the light of the day without the help and guidance that I have received.

My heartiest thanks to Dr. (Prof). Anand Singh Jalal, Head of Dept., Department of CEA for providing me with an encouraging platform to develop this project, which thus helped me in shaping my abilities towards a constructive goal.

The sincerity, thoroughness and perseverance have been a constant source of inspiration for me. He has showered me with all his extensively experienced ideas and insightful comments at virtually all stages of the project & has also taught me about the latest industry-oriented technologies.

I also do not like to miss the opportunity to acknowledge the contribution of all faculty members of the department for their kind guidance and cooperation during the development of my project. Last but not the least, I acknowledge my friends for their contribution in the completion of the project.

5. Reference

Introduction

- In today's digital era, no matter what your area of business is, a strong online presence can be your most important selling point. And when the industry is all about visual appeal, an online presence becomes even more important to convey your design style and get in new clients.
- The online store "E-Commerce" is designed to provide a hassle-free shopping experience to customers, eliminating the need to physically visit a store. With "E-Commerce ", customers can browse through a wide range of clothes, select the ones they like, and make purchases with ease. The online store is optimized for search engines, making it easy for customers to find what they're looking for.

Content

Project Details:-

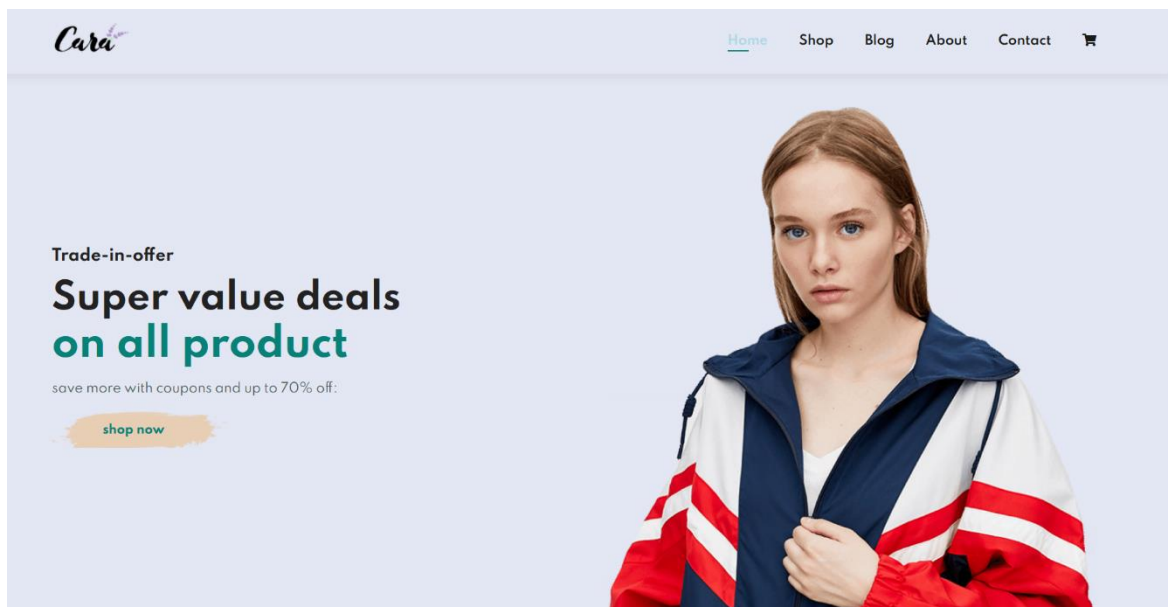

- Project Name:- E-Commerce
- Language Used :- HTML, CSS, JS
- User Interface Designs:- HTML ,CSS ,JavaScript
- Web Browser :- Chrome, Mozilla Firefox
- Tool Used :- VS-Code, GitHub
- Server :- Localhost and Live server of Vs-Code

THE WEBSITE

- The project aims to address the challenges faced by traditional brick-and-mortar stores, such as high rental costs, limited space for inventory, and a small customer base. By launching an online store, " E-Commerce " can overcome these challenges and reach a wider audience, tapping into the vast potential of the online shopping market.
- "E-Commerce" is an online store developed using . JavaScript was chosen for its ability to create fast and responsive user interfaces, making it an ideal choice for an e-commerce website like " E-Commerce ".

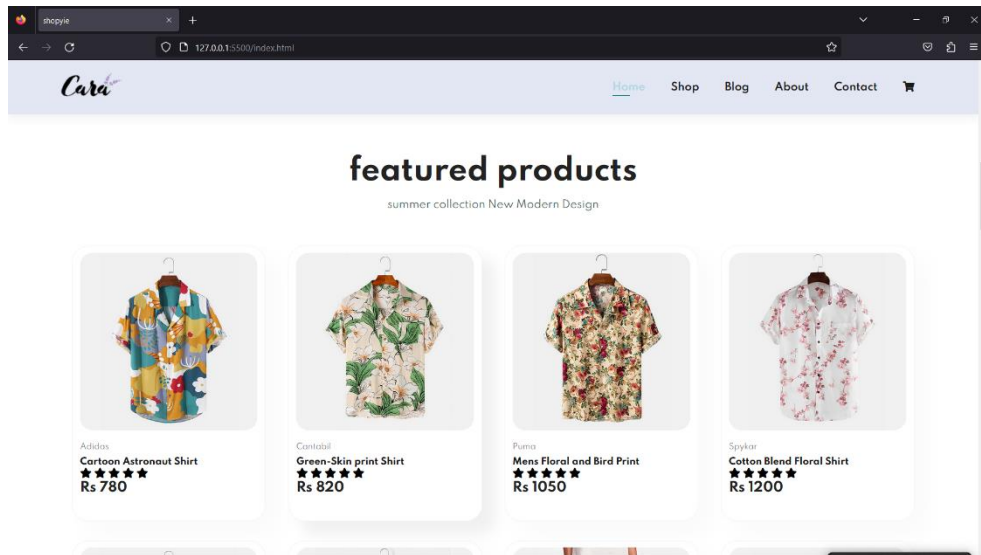

HOME PAGE

- The first impression is the last. This line should be the foundation of your homepage. Home page is the first thing customers see when they land on your website, and you don't want to go wrong with that. This is the place to capture their attention, and they decide if they wish to delve into the other pages.
- A homepage should be rife with details yet simple. Color schemes, images, font, tone—every element affects the customer's subconscious thinking. The page should be clutter-free, inviting, and pleasing to the eyes.

FEATURED

This page hosts galleries of all the crazy men's outfits.

SHOPPING CART

- The shopping cart is added so that user can add their products that they want to buy in single click.
- The shopping cart has features to add or remove the item from the cart or to clear the cart.
- A successful transaction from the cart displays a check sign indicating that the order has been placed successfully.

CONCLUSION

E-commerce still represents one of the business methods that take advantage if done the right way, even if the stock market and commodities fell, but E-Commerce still able to survive and receive high transaction. E-commerce has a tremendous opportunity in the course of or business in Malaysia. In addition, it is also to introducing new techniques and styles in a transaction. Use the extensive E-Commerce in the Internet world is actually much better to bring the goodness of the individual or the state.

E-Commerce has undeniably become an important part of our society. The successful companies of the future will be those that take E-Commerce seriously, dedicating sufficient resources to its development. E-Commerce is not an IT issue but a whole business undertaking. Companies that use it as a reason for completely re-designing their business processes are likely to reap the greatest benefits. Moreover, E-Commerce is a helpful technology that gives the consumer access to business and companies all over the world.
